The Abilene is perfect for the family that values space. The entrance of the home leads into a large family room with a raised ceiling and multiple windows that fill the space with natural light. Adjacent to this is an open dining room that flows seamlessly into a spacious kitchen, complete with an eating bar and plenty of storage. Private living quarters are located on the left side of the home, featuring two bedrooms, a full bathroom, and a utility room. On the opposite side, the master suite stands out with a bathroom offering dual vanities and walk-in closets. You can also choose to convert the study near the front entrance into another bedroom or create a secluded home office to suit your needs.
