Story

The Rio immediately opens into a spacious gathering area that includes a family room, kitchen, and dining area. The kitchen features an eating bar with open counter space overlooking the family room, a small work island, and a secluded walk-in pantry. The adjacent utility room also has space for a small chest freezer. A hallway extends past the eating bar, leading to a bathroom, two bedrooms, and a master suite with a large walk-in closet. Customize this floor plan with various ceiling options, an attached garage, or an additional bedroom to make it truly yours.
